SoS - State of Sabotage, is a state, founded by Austrian artist Robert Jelinek. It's territory is in Balrockistan but not limited to that: as a matter of fact, SoS can manifest itself anywhere from Austria to Australia, depending on it's citizens. The State of Sabotage thus is a territorial phantom. By cancelling state controlled land-holdings and frontiers it undermines the existing national systems. During steirischer herbst 2007 one can apply for SoS citizenship at the SoS consulate temporarily situated in Graz.

The SoS - Shadow Empire reflects the State of Sabotage in the virtual world. It is a virtual continent, a trans-national map without beginning and end, entirely determined by the SoS citizens. What you see here is it's printed image that, through the sizes of the individual areas, mirrors the space owned or rented by SoS citizens.
